

PROJECTS IN COLLABORATION WITH OTHER INSTITUTIONS

Projects	Institutional Researcher (IR)
Improving current barriers for controlling pharmaceutical compounds in urban wastewater treatment systems	Aida Duarte
Omica Platform for Prevention and Control of Infections and Resistance to Antimicrobials	Aida Duarte
Phage-Enzybiotic: dealing with critical pathogenic antibiotic-resistant bacteria	Aida Duarte
Oral mucoadhesive oral dexamethasone phosphate as a prophylactic strategy for everolimus mucositis	Aida Duarte
FructYEAST - Exploring unique metabolic traits of biotechnological interest in fructophilic yeasts	Madalena Oom
Importance of late diagnoses in the spread of the HIV epidemic in Portugal: a multidisciplinary approach	Perpétua Gomes
HIVMigrants: HIV-1 transmission in migrants: when, where, how and why? - Genomics, socio-behavioral and clinical data to understand HIV-1 transmission in migrants: an innovative approach	Perpétua Gomes
HIVERA-BESTHOPE project: Bio-Molecular and Epidemiological Surveillance of HIV Transmitted Drug Resistance, Hepatitis Co-Infections and Ongoing Transmission Patterns in Europe (HIVERA Transnational Cooperation)	Perpétua Gomes
Infected diabetic foot phage therapy	Patrícia Cavaco-Silva
Phage therapy of ventilator-associated pneumonias	Patrícia Cavaco-Silva
Antibacterial activity of compounds of natural origin or of chemical synthesis	Aida Duarte
Clinical impact of Klebsiella pneumoniae colonization / infection: persistence and resistance to antibiotics. Macro genomic and micro-evolution of 500 strains of K. pneumoniae, identified during a period of three decades and coming from health units of Lisbon and several cities of Portugal	Aida Duarte
Literacy in health and adherence to therapeutics	Filipa Alves da Costa
